

Automated Garbage Truck

To ensure your garbage will be picked up, please follow these simple tips!

1

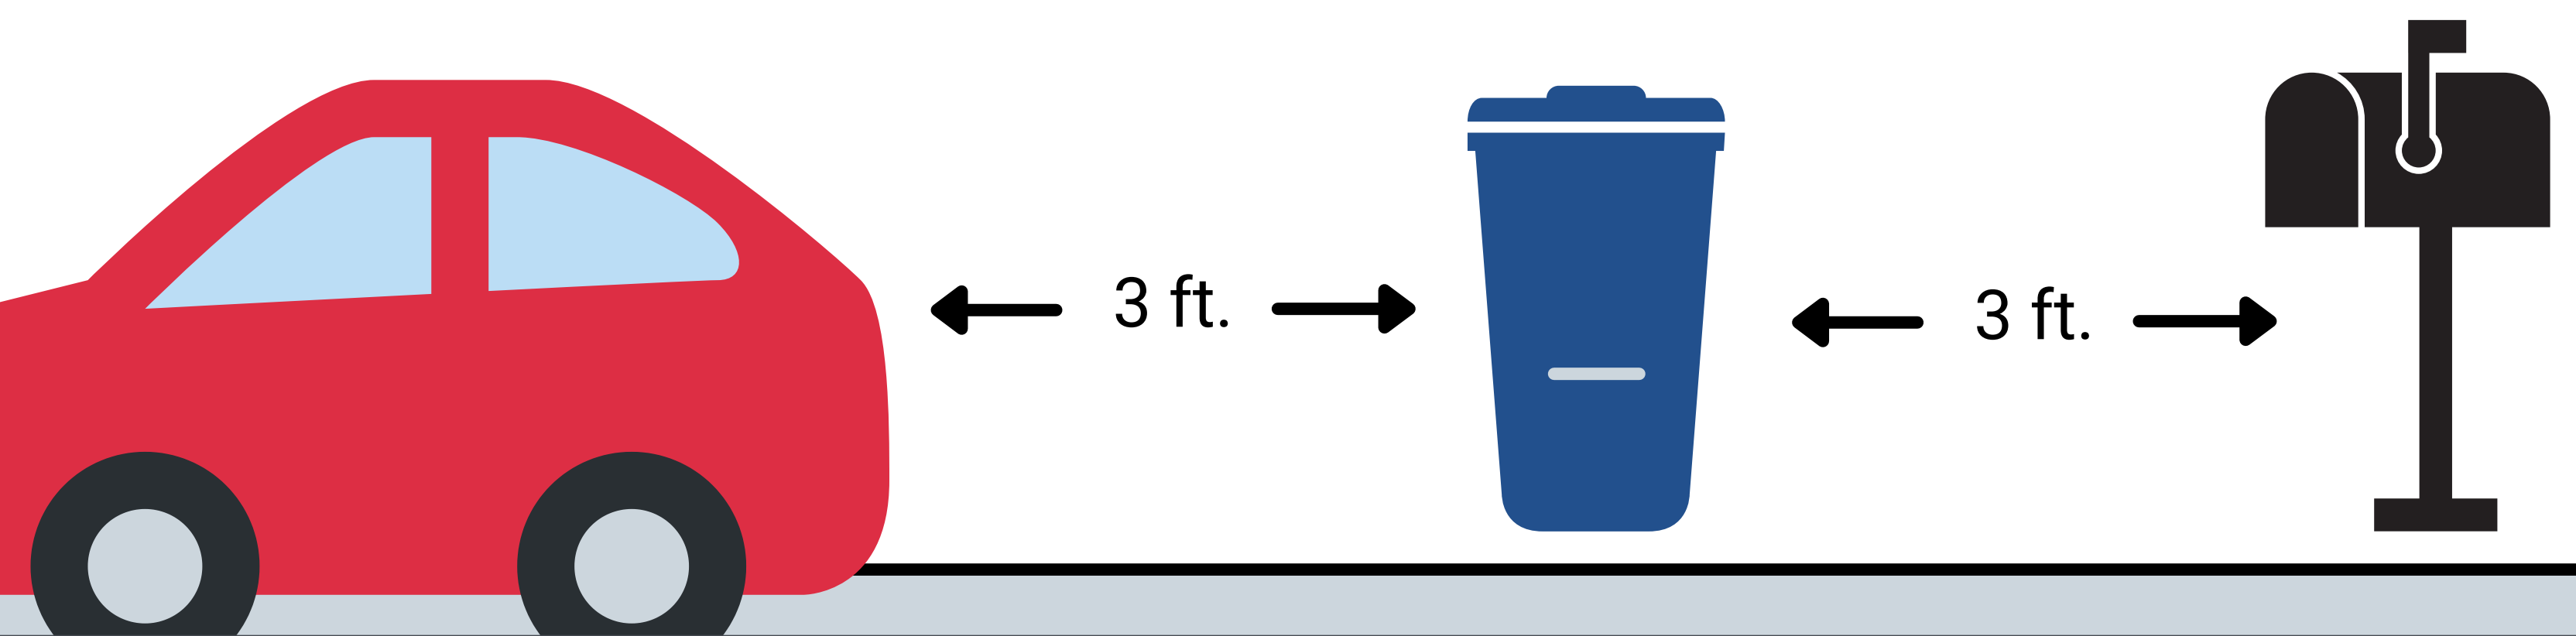

Must be 3 ft. in between your can and your mailbox, car, or any surrounding objects

2

Metal bar must be facing towards street

3

Make sure your can is squared up facing the street

SAPSD Requirements:

- All SAPSD residents are required to use their blue SAPSD can for their garbage collection.
- There must be 3 ft. in between your blue SAPSD garbage can and any surrounding objects (mailbox, car, fire hydrant, etc.). The mechanical arm that grabs the blue can needs that clearance in order to collect your garbage.
- This placement of the cans must be followed to ensure your garbage will be collected.
